

Smarter workspaces with Officebooking Room Signage

How to keep your meeting spaces organized? How important are your reception area and board rooms for your professional presentation? Officebooking makes working very easy: reserve a meeting room on your mobile, tablet, via our web app or direct touch device and get to work! Prevent double reservations, no-shows and empower your employees with selfservice features. Our room signage application can be used instantly on various display systems. You only need a (wireless) connection. Installation and activation of your Officebooking account is really easy: within a number of clicks you're 'live'.

Interactive touch

Our signage applications are dedicated for ad hoc direct touch reservations. Extend or end your current meeting directly on the panel.

- Use touch for quick reservations
- Shows occupation, title and host
- Landscape or portrait mode

Outlook integration

Fully integrated with MS Outlook via our custom Add-in or O365 integration. We offer many 3rd party integrations including Microsoft Exchange or Microsoft 365.

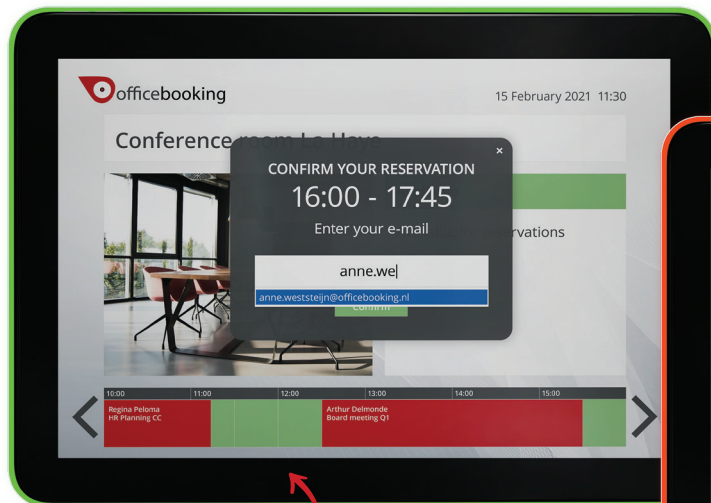

- MS Exchange server & Office 365
- Secured for unauthorized access
- Privacy by design

Mobile booking

Create or manage your reservations with our mobile apps. Manage no shows by requesting checkin and checkout of your users.

- Book upfront via mobile or web
- Custom corporate styling
- Remote management

Create a reservation
by entering your
email address

The LED border will
change with the current
status of the room

Seamless integration

Our Room booking solutions are seamlessly integrated with our mobile and web apps. By supporting self service on every part of their journey our apps create a great customer experience.

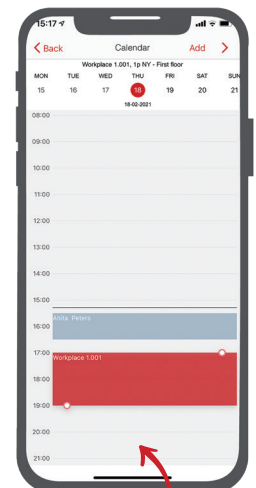

Enhance the mobility of your employees: at home, on the road or at the office.

- Available for iOS and Android
- Check availability of your assets
- Smart booking: claim, queue or reserve
- Find your colleagues
- Interactive wayfinding

Workspace management

Manage your workspaces and company assets with our backoffice application, OfficeAdmin. Within the OfficeAdmin you can easily request reservation overviews, add reservations or view your occupancy.

- Occupation in one dashboard
- Manage your spaces and location
- Multi tenant and guests
- Full support of your workflow
- Manage amenities
- Create and export reports
